

Special \$300 Rebate Offer

Would you like to be paid for saving water?

You may be eligible to participate in the ACSA Toilet Rebate Program

ACSA is offering up to \$100 per toilet (maximum of three) to customers who replace older, water guzzling toilets with new, low-flow (1.6 gallons per flush or less) toilets.

What do you have to do to qualify?

1. Must be an ACSA residential customer.
2. Must own and occupy home, or be a renter directly responsible for the utility bill.
3. Toilet(s) being replaced must be older generation (greater than 1.6 gallons per flush) installed prior to 1992.
4. Must be pre-approved to participate.
5. New toilet(s) must be installed and an itemized receipt, along with the completed rebate form, must be submitted to ACSA within 60 days of receiving pre-approval.
6. Old toilet(s) must be placed outside by customer, to be picked-up by ACSA staff. Failure to provide old toilet could result in denial of rebate.
7. Customer must allow entrance to the residence by ACSA personnel for verification of the toilet installation, if necessary.

How do you receive pre-approval?

Funding for this program is limited. It is offered on a first come, first served basis. Rebate is not guaranteed except by confirmation of approval, and only if program requirements are met.

To receive pre-approval, call for, complete, and return a qualification form to: ACSA Toilet Rebate, 168 Spotnap Road, Charlottesville VA 22911.
Phone: 434.977.4511

Upon receipt of qualification form, ACSA will determine eligibility and mail you a confirmation.
